Enrollment of Non-Mandated Drivers

There is no provision contained in CVC 1808.1 that permits the enrollment of drivers not specified in CVC 1808.1 (k), however, in the interest of public safety, the DMV will allow an employer to enroll non-mandated drivers in the EPN Program when all of the following conditions have been met:

- Must be an employer/employee relationship.
- Employee must drive frequently during course of employment.
- Employer must have employee sign a waiver (form INF 1101 or internal document with similar language) which must be maintained at the employee's worksite.
- Information received by the employer shall be for the business use of the employer and shall not be passed or shared with any third party.
- Upon termination of employment, employer must remove employee from EPN program immediately.

Employer Responsibility

In order for the EPN program to maintain accurate record information, it is imperative that the employer notify the department in a timely manner whenever changes occur to their EPN account. Such changes include:

- Termination of enrolled drivers pursuant to CVC 1808.1(d)
- Address Changes (mailing & physical)
- Change of Ownership (corporate officers, partners)
- Employment Changes (new driver, termination of drivers)
- Change of Federal Employer Identification Number (FEIN)
- Change of Telephone Number
- Close of Business
- Mergers
- Sale of Business
- Company Name Change
