 AF Group

Claims Texting

Our Workers' Compensation with Care® philosophy provides fast attention to reduce litigation risk and prompt injury reporting for better treatment and savings. We use predictive analytics to manage costs and identify claims at risk for litigation.

Customized Loss Control

We help customers reduce insurance costs and keep employees safe through tailored risk assessment and injury prevention. Each policyholder is assigned a dedicated loss control consultant to develop strategies.

Disputed Claims

CompWest's CARE 2.0 program resolves 95% of disputed claims before trial, reducing costs and case exposure. It minimizes excessive medical treatment, lien balances, and extended disability periods, leading to quicker file closure and lower settlement costs.

Return to Work

By implementing a return-to-work program, not only are you providing stability and peace of mind for your workforce, but you're also protecting your bottom line by lowering your ex-mod, and ultimately your workers' compensation premium.

TeleCompCare®

Our 24/7 nurse triage and telemedicine service provides injured workers with quick access to medical care. Injured employees are directed to a trained triage nurse who assesses the injury, offers guidance, and refers the worker to appropriate medical care.
